

NEPOOL GIS Account Holder Reports and Public Reports Changes

The APX team has been diligently working to make the following updates to the report functionality in GIS:

- General modernization and improved performance
- New parameters for Users to filter specific data sets
- Consolidate Quarterly/Annual options into a single report
- Merge related reports to maximize access to relevant information
- Disable unused GIS reports
- New Excel and PDF download options
- New Search feature to locate specific information on reports
- And more...

This document outlines the upcoming changes to Public Reports and Account Holder Reports:
