

NEPOOL GIS State Regulator Reports Changes

The APX team has been diligently working to make the following report updates:

- New modernized GIS reports
- New parameters for Users to filter specific data set in reports
- Consolidate Quarterly/Annual Reports
- Merge various reports to maximize relevant information on reports
- Disable unused GIS reports
- New Excel and PDF download options
- New Search feature to locate specific information on reports
- And more...

This document outlines the upcoming changes to the State Regulator Reports:
